The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's Web site for an example showing the long-term effect of fees and expenses at http://www.dol.gov/ebsa/publications/401k_employee.html. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

The Board has adopted a market timing policy and has approved the procedures of the Funds' transfer agent, WISC, for implementing this policy. WISC's procedures reflect the criteria that it has developed for purposes of identifying trading activity in Fund shares that may be indicative of market timing activities and outline how WISC will monitor transactions in Fund shares. In its monitoring of trading activity in Fund shares, on a periodic basis, WISC typically reviews Fund share transactions that exceed certain monetary thresholds and/or numerical transaction limits within a particular time period. WISC will follow, monitor, and enforce excessive trading policies and procedures. Below is an example of trading activity that would be considered excessive and in violation of the Funds' market timing policy.

Lazard Capital Alloc. Opp. Strategies

PIMCO Total Return Fund

The Trust and PIMCO each reserves the right to restrict or refuse any purchase or exchange transaction if, in the judgment of the Trust or of PIMCO, the transaction may adversely affect the interests of a Fund or its shareholders. Among other things, the Trust may monitor for any patterns of frequent purchases and sales that appear to be made in response to short-term fluctuations in share price and may also monitor for any attempts to improperly avoid the imposition of a redemption fee.
